## Placement History

BVICAM has over the years built a strong and cordial rapport with several IT companies. We also have been getting overwhelming responses from these IT companies where our alumni had been placed. This acted as a catalyst in the growth of job placements on our institution. Our students have secured a continuing tenure-track job within 8 years. And consequently more and more IT companies have been visiting our institute for 'On campus recruitment?'. This has apparently earned us another feather in the cap. The list below highlights the placement record for the past ten years, by year of post graduation.

Our top recruiting companies include IT majors like **TCS, Acicent, Nagarro, Indus Valley Parteners, Thorogood, ThoughtWorks, Intelligrape, Reval** and many more. You may [click here](#) <sup>[1]</sup> for further details...
