**Abstract of the
Talk**

Intellectual Property Rights (IPR) refers to the legal rights given to the inventor or creator to protect his/her invention for a certain period of time. The main purpose of IPR is to encourage the creation of a wide variety of intellectual properties. It not only helps to the inventor in multiple ways but also has significant influence on international trade and indigenous trade of every nation, thereby facilitating the economic development of a country by promoting healthy competition and encouraging industrial development and economic growth. The webinar aims to discuss all related issues and various related initiatives undertaken by the Government of India on mission mode.

All are welcome:

Please circulate this to all your interested colleagues, associates and friends. Please register in large numbers and derive maximum benefit. **Advance registration is mandatory for participation. Participants will also get Participation Certificate.**
